ABOUT LURID PURPLE FLOWERS

From the trenches of the Boston underground, Lurid Purple Flowers combines their hard rock, psychedelic, and funk influences to incredible effect on their debut ep, *Mania*. Frontwoman CA Newcomb's writing is gritty and dark, but with hopeful notes that resonate throughout the entire project. Mind-bending song structure and addictive choruses are a staple of their sound, almost making you feel like you're ascending into the sky. Their packed live shows carry a volatile energy, and are best enjoyed at full volume
